PERSONAL INSIGHT QUESTIONS

- **All questions are equal.** All are given equal consideration in the application review process, which means there is no advantage or disadvantage to choosing certain questions over others.
- **There is no right or wrong way to answer these questions.** It's about getting to know the student – their personality, background, interest and achievements in their own unique voice.

THE PERSONAL INSIGHT QUESTIONS

1. Describe an example of your leadership experience in which you have positively influenced others, helped resolve disputes, or contributed to group efforts over time.
2. Every person has a creative side, & it can be expressed in many ways: problem solving, original and innovative thinking, and artistically, to name a few. Describe how you express your creative side.
3. What would you say is your greatest talent or skill? How have you developed and demonstrated that talent over time?
4. Describe how you have taken advantage of a significant educational opportunity or worked to overcome an educational barrier you have faced.
5. Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge. How has this challenge affected your academic achievement?
6. Think about an academic subject that inspires you. Describe how you have furthered this interest inside and/or outside of the classroom.
7. What have you done to make your school or your community a better place?
8. Beyond what has already been shared in your application, what do you believe makes you stand out as a strong candidate for admission to the University of California?

COMPREHENSIVE REVIEW

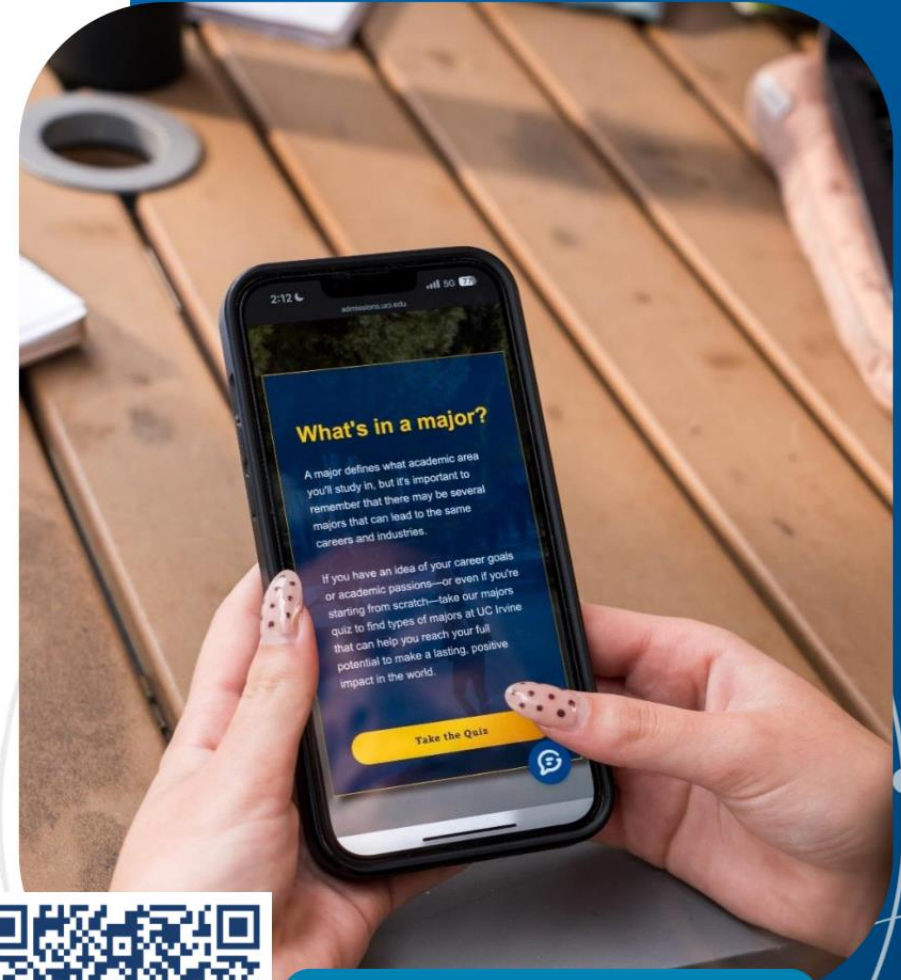

- Grade-Point Average
 - Courses completed/planned beyond minimum A-G requirements
 - Approved honors, AP, IB, university courses
 - Eligibility in the Local Context (ELC)*

PERSONALIZED OPPORTUNITIES.

A photograph of the University of La Verne campus. In the background, a large, light-colored building with a red-tiled roof is visible, partially obscured by dense green trees. The sky is a mix of blue and orange, suggesting a sunset or sunrise. The overall scene is a lush, green campus setting.

Private vs Public Universities

Exploring the key differences between private and public universities in terms of cost, academic programs, and student experiences.

University of
La Verne

Introduction

Student Population

Explore the differences in student demographics, class sizes, and campus experiences between private and public universities.

Financial Aid Options

Discuss the various scholarship, grant, and loan opportunities available for students at private and public institutions.

Specialized Programs

Highlight the unique academic offerings, research facilities, and career-focused curricula that may be more prevalent at either private or public universities (impacted vs non impacted)

This presentation will provide a comprehensive overview of the key differences between private and public universities, empowering you to make an informed decision about your higher education path.

Student Population Differences

- Private Universities

Private universities typically have smaller student populations, often ranging from a few hundred to a few thousand students. This allows for more personalized attention and smaller class sizes.

- Public Universities

Public universities tend to have larger enrollments, with student populations ranging from several thousand to tens of thousands. This larger scale enables public universities to offer various academic programs and resources.

Cost of Attendance

	Tuition and Fees (2022-2023)	Room and Board (2022-2023)
Private	\$54,880	\$16,640
Public	\$26,600	\$12,870

*Data from the College Board's Trends in College Pricing and Student Aid 2022 report.

Financial Aid Opportunities

Private Universities	Public Universities
Offer more financial opportunities, including scholarships and grants	May have more limited funding sources for financial aid
Provide a wider range of merit-based and need-based aid options	Typically have fewer resources to allocate towards financial assistance

Applying to Private Schools vs. Public Universities

Common Application

A standardized college application accepted by over 900 colleges and universities, allowing students to apply to multiple schools with one application.

School-Specific Applications

Many private schools and some public universities may require their own unique application forms and supplemental materials in addition to or instead of the Common App.

SCOIR

A college and career planning platform that provides tools for researching, applying, and managing the college admissions process.

Niche

A website that provides in-depth information and reviews on colleges, universities, and K-12 schools to help students find the best fit.

Navigating the college application process can be complex, but understanding the different tools and platforms available can help students successfully apply to both private schools and public universities.

Early Application Options

Early Decision

Binding application where you commit to attend the college if accepted. Typically due in November.

Early Action

Non-binding early application, allowing you to apply early and receive a decision without committing. Typically due in November.

Regular Decision

Standard college application process where you submit your application by the regular deadline, typically January 1st for Private. Both CSU and UC deadline is December 2nd.

Understanding the differences between these application options can help you make the best decision for your college journey.
